

Project Update

St Annes Event Space

For any further information or queries please email:
listening@fylde.gov.uk

The ambitious regeneration project aims to create an attractive event space and enhance public area's in the heart of St Annes. Increasing events in the town centre will lead to more footfall from visitors and residents with the long term goal of generating economic activity. The event space is part of the St Annes Masterplan, which has been designed to improve the look and feel of the town centre, promote public transport and enhance the character of the conservation area.

Junes Milestones: Progress Made

June saw significant progress on site, driven by an increase in resources. Most of the paving and kerbing work was completed, which helped reduce the volume of materials stored at the North Promenade Car Park compound. Installation of new lighting and benches also began during the month. The carriageway has been resurfaced and road markings applied. Once the works are fully completed, traffic will return to a two-way system with no loss of car parking spaces. Additionally, new planting has started in both the new and existing beds, featuring coastal and salt-tolerant species.

July's Focus: Upcoming Work

Work is progressing well, with the installation of benches on the south side nearing completion. Handrails will also be installed on the south side steps, and paving work at the car park entrance on the south side is set to be finalised. On the north side, the steps and pedestrian crossing point have been completed. Throughout July, isolated pockets of work will continue to be carried out to bring the scheme to completion.

Carnival Parade

St Annes Carnival Parade will pass through the square on Saturday 12 July. While the Square improvements aren't fully finished, we are temporarily moving back the fencing to allow spectators the opportunity to stand on the new pavement to watch the procession. We welcome everyone to come along, see the improvements and enjoy the day.
